## THE BOARD OF TRADE.

Business of Importance Tomorrow Night.

The Advantage Enjoyed by Tempe in the Possession of Business Backbone and Energy.

The Tempe board of trade will hold a special meeting Friday evening at the office of Schultz & Franklin to consider some very important business. Tempe is indeed very fortunate in possessing such a well organized and influential body of business men are ever on the alert to do what is right and just for the advancement and prosperity of the town and surrounding country. The board of trade is a necessity in all growing communities and no place appreciates this fact more than does Tempe. It is the life and backbone of representative business houses and successful farmers and the advancement of a new country would be very slow indeed were it not for a board of trade. This institution has done and should continue to do, more for Tempe than any individual can ever hope to accomplish. It lies within their power to promote the welfare of our citizens to even beyond their expectations, and since they are in a position to do so much for the many, the members of the board should embrace the opportunity and place Tempe before the world as a model town and with resources at her command that are equaled by few and excelled by none in the territory.

By the liberal use of printers' ink this end may be accomplished. Advertise your town; your people, your schools, your business, and in fact all your resources, and the result will be an influx of people that will more than redouble your present prosperity and bring gladness to the heart of the invalid who shall enter this garden of Eden through the medium of a judicious use of printer's ink.

Lost—Two memorandum books. Return to G. Reynolds and receive reward.

## PACIFIC COAST PHILOSOPHY.

NO MAN can be a hypocrite to his own children.
